**Subject:** RE: Haditha Wrap Up

Hi Steve - it marks the investigation into Haditha in general. I will send my response through my chain, then through the Dept of the Navy for James Willson-Quayle to send forward to Mr. Wester. It came in through Charley Barth and he answered the last inquiry.

I am compiling the package as we speak for routing. Stand by!

Kim,

Does this mark the close of the investigation into the alleged destruction of Haditha records? Will you be sending a formal response to Paul Wester?

Thank you.

Steve

Gentlemen,

I want to thank you all for your assistance in what has been a very long research project for my office. This email serves as confirmation by this office that my requests to your organizations and your responses have led to the determination there is no evidence of unauthorized destruction of records in and around the Haditha incident.

I am dusting off a response memo I drafted several months ago to forward to the National Archives and Records Administration. LtCol Kumagai, you have already seen it sir, but I will send again as there are minute changes since it has crossed your desk.

I was hopeful that further insight and information would be provided; however, it appears there is nothing further to share on the subject.

I will forward the memo for your records and situational awareness early next week. Your organizations and point of contact information will be included in my response to the National Archives and Records Administration as being source points in my research.

Thank you very much, gentlemen.
